

## SMALL & MIDSIZE BUSINESS OUTLOOK

# Navigating *inflation, tariffs* and *talent* in today's economy

Insights from 500 founders, CEOs, partners, presidents and principals at U.S. companies generating \$500K to \$100M+ annually reveal how businesses plan to increase revenue, improve efficiency and prepare for succession in Q1.

## Q1 2026: Revenue, optimism and challenges

**New research from Citizens\* finds that U.S. business leaders remain confident in their prospects and the broader economy, despite ongoing volatility.**

### Confidence in the U.S. economy over the next three months

Extremely, very or  
somewhat confident

Not too confident

Not at all confident

# 77%

**confident in the  
U.S. economy**

of businesses expect revenue to increase in the next three months

“Despite challenging economic conditions, business leaders are planning for success and charting a clear path forward in Q1. In true entrepreneurial style, they are combining creativity, resilience and determination with the right tools to deliver what customers want.”

**Mark Valentino**  
Head of Business Banking

### Q1 business challenges

1. Managing rising costs/inflation
2. Managing the impact of tariffs
3. Coping with uncertainty about the economy
4. Finding and keeping customers
5. Finding and integrating technology

### Top ways businesses respond to inflation\*\*

1. Raising prices
2. Absorbing cost increases
3. Switching to lower-cost supplies

## Staffing: A central priority for Q1 plans

Staffing is a focus for Q1; 68% of companies say they'll hire full-time, part-time or contract employees this quarter.

### Key hiring challenges

of businesses plan to increase full-time staff in Q1 2026

## Q1 growth: Supported by credit, driven by efficiency and technology

Credit will help businesses move quickly to seize opportunities and outpace the competition to reach Q1 goals.

of businesses plan to increase credit usage in Q1

### Credit tools for Q1: Businesses increasing credit

“A business line of credit has been a great security blanket; as a small business, I know that I need to be careful with money, but I also need to be comfortable with taking risks, so I can grow with support to keep moving in the right direction.”

Ian Duryea

## Key takeaways: Q1 is a time to optimize and outpace

Citizens research shows that small and middle market companies are optimistic, forward thinking and grounded in economic reality.

### For Q1 2026, business leaders are:

**Optimistic.** Roughly three-quarters of businesses in the survey expect revenue increases soon and believe in the strength of the U.S. economy.

**Customer focused.** 65% of companies cite more customers as the reason revenues will increase in Q1.

**Optimized for efficiency.** 60% of businesses cite improved efficiency or systems as the way they'll achieve Q1 revenue goals.

**Technology enabled.** Technology investments are a #1 priority, and AI will help with efficiency and customer acquisition and retention.

**Leaning on tools.** 53% of companies will use more credit to reach business goals in Q1, and 46% plan to increase spending on digital financial tools.

**Planning for succession.** Business leaders are planning ahead to protect what they've built when it's time to hand off company management.
